

Pipe Anchorage Connector
Part# 00630

SPECIFICATIONS
PAGE 1 OF 1

DESCRIPTION

The Anchor is designed to be a single point fall arrest attachment point for a single worker. The anchor is acceptable for fall arrest and fall restraint and is compatible with vertical rope lifelines, self retracting lifelines and shock absorbing lanyards. The anchor should only be connected to round attachment points 5.5” diameter or smaller. Small diameter is only limited by the capability of the anchorage to sustain 5,000lb.

GENERAL SPECIFICATIONS

Item	Description	Tested At
Anchor	Stainless Steel	5,000 lb
Capacity—1 worker, max weight 310lbs including tools and equipment		
Technical References: Meets OSHA 1926 Subpart M, ANSI Z359.1-2007
