

**Concrete Anchor Strap**  
Part# 872XP

**DESCRIPTION**

The Safe Approach concrete anchor strap features heavy duty 7,000 lb rated webbing for extra strength and durability. The polyester webbing resists uv and chemical degradation. It also features a tubular wear pad for longer life in harsh environments. It features an anchor d-ring compatible with all lanyard hooks and a pass through loop for cinching. The strap is a 5,000 lb anchorage point when installed properly.
