

**Model M Beam Clamp**  
**Part# 00016**

**SPECIFICATIONS**  
**PAGE 1 OF 1**

**DESCRIPTION**

The Model M beam clamp is designed to be used as a fall arrest attachment point, or to suspend equipment. It can be used as a horizontal or a vertical fixed point anchor. This anchor is also suitable as a connection point for a vertical or horizontal lifeline system. The anchor will fit I and H beams with flanges up to 1-1/4" thick and 12" wide.
